### NCHS'S GOAL

After some failed attempts at recycling, NCHS wanted to take a holistic look at opportunities beyond just recycling, including retrofitting their current older facilities. The 84,000 sq. ft. NCHS headquarters building, for instance, has no lighting controls or programmable thermostats, with most lights & HVAC on 18 hrs/day, 6 days/week, regardless of occupancy.

***"Going into this I thought it was just about energy. But it's financially responsible; it's resource responsible. There are opportunities to run your business more efficiently at no extra cost. In the end, you have a story to tell to your customers, and you have money in the bank!"***

Mike DeLeon, AVP of Purchasing and Facilities, North County Health Services (NCHS)
